

## Fantastic 10.00 Installation Guide 17 OCT 2006

### Installing Fantastic off the web:

1. Go to [www.acmefan.com](http://www.acmefan.com), in the lower left you will see the FANtastic! Link. Click on the word FANtastic.
2. Next screen gives you the option to order a disk or download from the site.
3. Click the word HERE to begin your download.
4. Click on FANtastic! Version 10.0 to begin downloading.
5. Note: The CD key is NCM-ALL you will need this later when running agent setup.
6. On the next screen click on HERE near the bottom to begin.
7. It is recommended to save the zip file on your hard drive in case you need to reinstall the program.
8. (ACME REPS ONLY) While waiting for the download please contact Cindy Webb, [cwebb@acmefan.com](mailto:cwebb@acmefan.com) for your agent set up file to be emailed to you at this time. Leave in your email until needed.
9. After you have saved the zip file double click on the fantastic10.zip file to open your unzip program. (We use WinZip which can be downloaded at <http://www.download-it-free.com/winzip/> are any other free sites.)
10. All the files will be displayed (WinZip Program) in the window area.
11. Scroll down to the bottom and double click on Setup.exe and click OK to install.
12. On Install Shield Wizard click Next.
13. Choose Destination Folder should show C:\Program Files\Fantastic! Click Next or Browse to Create this folder.
14. Under setup type you may select the AutoCAD Processor if a licensed AutoCAD program is installed on your computer if not the default Submittal Processor Only will work. Click Next and Next again.
15. On your desktop now will be a Fantastic short-cut, a Fantastic Agent Setup short-cut, and a Fantastic Drawing short-cut. You can delete the Fantastic Drawing short-cut.
16. Open Agent Setup on your desk top.
17. Under the CD key field enter NCM-ALL.
18. For REPS the Import from Floppy button is used to install pricing but most computers no longer have floppy drives. To solve this problem ACME has come up with solution covered through the next steps which will guide you through the process of installing pricing.
19. Leave other fields blank at this time.
20. Click on Update From Entered Information button.
21. Open the email containing the Ordsys.zip file double click on the file to open up WinZip.
22. Open up my computer and navigate to open C:\program files\fantastic\data.
23. Click and drag the Ordsys.MDB from your zip program and place into the data file mentioned above.
24. Close all opened documents and Click on FANtastic! 10 shortcut key on your desktop.

25. Click on New Project
26. Write down your Product ID and contact your CSR at ACME for a registration Code.
27. Enter code received.
28. Click YES to download updates
29. If you get an error stating you can only run one instance of Fantastic! at a time just click okay.
30. Close internet screen
31. Open Fantastic again and click new project.
32. REP, multipliers are based on price and are entered at Project Info. Folder.

### Network systems

If all computers are on a network and have access to a common drive:

1. Go to the computer that already has FANTastic loaded and operating.
2. Open up "My Computer" and browse to c:\program files\fantastic\data
3. Copy file called ordsys.mdb to a floppy and paste in the common drive folder
4. Go back to the computer that is being installed with Fantastic and copy the ordsys.mdb from the network drive folder into c:\program files\fantastic\data
